**PUTNAM MATHEMATICAL
COMPETITION**

Discussion of Solutions

The sixty seventh annual William Lowell Putnam Mathematical Competition was held on Saturday, December 2, at more than three hundred universities and colleges across the United States and Canada. Our university was represented by Jarad Demick, Brennan Bell, and Zachary McGuirk. On Friday, December 8, we discussed the solutions of problems A1, A2, B1, B2, and B5. This Friday we will continue our discussion of the problems from the competition. Please feel free to bring your own solutions to the meeting.
