

**CCSU**  
**DEPARTMENT OF MATHEMATICAL SCIENCES**

**COLLOQUIUM**

Friday, May 2  
2:00 – 3:00 PM  
Maria Sanford, Room 101

**FROM MATH TO ART**

**GEORGE HART**

**STONY BROOK UNIVERSITY**

**Abstract:** Geometric sculptures, mathematical puzzles, insightful videos, hands-on workshop activities, and the museum of mathematics in NYC are all means to demonstrate that math is a living, creative, joyful subject---i.e., that Math is Cool! I will present and discuss a variety of these works from my creative output, and show you some giant mathematical artworks, 3D printed mathematical models, and original workshop projects. For examples of my work, see <http://georgehart.com>.

Note 1: George Hart will also be leading a morning hands-on workshop on May 2nd. To reserve a place for the workshop contact Louise Gould at [GouldS@mail.ccsu.edu](mailto:GouldS@mail.ccsu.edu).

Note 2: George Hart is a sculptor, applied mathematician and interdepartmental research professor at Stony Brook University.
