Friday, November 21
3:00 – 4:00 PM
Maria Sanford, Room 101

IMPROVING MATH FOUNDATIONS
IN THE DIGITAL ERA, PART II

MARIAN F. ANTON

CENTRAL CONNECTICUT STATE UNIVERSITY

Abstract: In this talk, I will continue presenting the joint development of the textbook *Mathematical Foundations* with Karen Santoro, highlighting case studies, emerging trends, and project statistics that illuminate the pedagogical and logistical challenges we have encountered. I will then outline a blueprint for a comprehensive guide to both the theory and practice of teaching mathematical foundations at the university level, with an eye toward creating a cohesive, adaptable framework for instructors.
